

David Hammer Estate Sale

The family of David Hammer will have an auction March 23 to sell the sheep supplies and equipment that they have accumulated over the years. You may or may not know that David died on October 8, 2018. The Lincoln and a few Rambouillet ewes were sold shortly after his death, and they are now selling the equipment, the livestock trailer and other machinery and portable buildings. The family would deeply appreciate your help in getting the word out to sheep people.

The website is found below. Questions can be directed to Katherine Hammer.
